

2017 Symposium on Public Policy for Nonprofits

Toward an Index of a Healthy, U.S. Nonprofit Sector

ARNOVA's 2017 policy symposium, which was organized in collaboration with the organization Independent Sector, focused on the idea of a health index, or indices, for the U.S. nonprofit sector. Participants were invited to develop short, concept papers addressing a broad range of issues related to a nonprofit health index. Selected researchers presented their papers at the Independent Sector annual conference in Detroit, Michigan in October 2017 and then again at ARNOVA's annual conference in Grand Rapids, Michigan in November 2017. An introduction and four papers were then published in the October 2018 issue of the open access journal *Nonprofit Policy Forum* that interested readers can access by following the link below.
